

Carbon Monoxide kills...

Self Contained Carbon Monoxide **Alarm** Model SF350

5 Year Guarantee

**NO Batteries
or sensors
to replace**

NO Mains power

NO Maintenance

**Why choose the SF350
Carbon Monoxide
(CO) alarm:**

- Superior electrochemical cell sensing technology
- Easy to install & use (wall mounted or freestanding)
- Automatic sensor adjustment function ensures complete accuracy
- Approved to BS7860 & kitemarked
- Continuous self test function
- Batteries supplied & pre-fitted in alarm
- Optional tamper proof locking facility

BS 7860-1996
KM36020

From SF Detection, the UK's No.1
Manufacturer and Supplier of
Carbon Monoxide Alarms

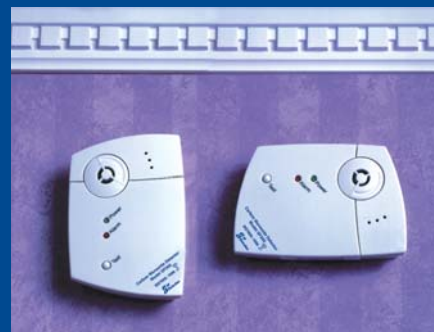

Keep your family safe!

...CO alarms save lives!

Self Contained Carbon Monoxide Alarm Model SF350

Specification for Model SF350

Detection Principle:	electrochemical cell
Operating Voltage:	4.5V
Alarm Life:	5 years under normal operating conditions
End of Alarm Life Warning:	3 short chirps every minute
Alarm Indication:	audible and visual alarm
Buzzer Output:	>85 decibels (dB) at 3m
Operating Temperature Range:	-5 to +40°C
Alarm Levels:	150ppm between 10 to 30 minutes 350ppm within 6 minutes (as required by BS7860:1996)
Weight:	140g approx.
Dimensions:	110mm x 76mm x 34mm
Test Facility:	yes
Self Check Function:	yes

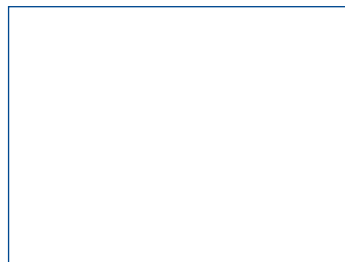

Wall mounted.

Free standing.

Sensor Technology

The latest electrochemical cell technology ensures complete accuracy and reliability giving a 5 year guaranteed life under normal operating conditions. It is officially approved and Kitemarked to the stringent performance requirements of BS7860:1996 - the British Standard for domestic carbon monoxide alarms.

Installation

The SF350 is simply attached to the wall using the fixing kit provided, with no need for any wiring. No maintenance is required for the full 5 year life of the alarm, with no batteries, sensors or any parts to replace. Tamper proof locking kit available for larger installations.

All gas appliances should be checked for safety annually.
